This document is not an invitation to invest in any fund and does not constitute a public offering of sale. Purchases in the funds can only be made through an Investment Professional on the terms in the applicable fund's offering document by eligible investors. Each purchaser of units in a fund may have statutory or contractual right of action.

You will usually pay brokerage fees to your dealer if you purchase or sell units of Canso Credit Income Fund or Lysander-Slater Preferred Share ActivETF on the Toronto Stock Exchange. Only Class A units of Canso Credit Income Fund are listed on the Toronto Stock Exchange. If the units are purchased or sold on the Toronto Stock Exchange, investors may pay more than the current net asset value when buying units of these funds and may receive less than the current net asset value when selling them. There are ongoing fees and expenses associated with owning units of an investment fund. An investment fund must prepare disclosure documents that contain key information about the fund. You can find more detailed information about the fund in these documents.

Lysander-Canso Credit Opportunities Fund and Lysander-Triasima All Country Long/Short Equity Fund are alternative mutual funds. They have the ability to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds. The specific strategies that differentiate these funds from other types of mutual funds include: increased use of derivatives for non-hedging purposes; increased ability to sell securities short; and the ability to borrow cash to use for investment purposes. While these strategies will be used in accordance with the funds investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value.

Commissions, trailing commissions, management fees and expenses all may be associated with investment fund investments. Please read the prospectus before investing. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated.
