A Note About Forward Looking Statements

This annual Management Report of Fund Performance includes certain statements that are “forward looking statements”. All statements, other than statements of historical fact, included in this Management Report of Fund Performance that address activities, events or developments that the Fund expects or anticipates will or may occur in the future, including such things as anticipated financial performance, are forward looking statements. The words “may”, “could”, “would”, “should”, “believe”, “plan”, “anticipate”, “expect”, “intend”, “forecast”, “objective” and similar expressions are intended to identify forward looking statements.

These forward looking statements are subject to various risks and uncertainties, including the risks described in the simplified prospectus of the Fund, which could cause actual financial performance and expectations to differ materially from the anticipated performance or other expectations expressed.

Readers are cautioned not to place undue reliance on these forward looking statements. All opinions contained in forward looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

The Fund has no specific intention of updating any forward looking statements whether as a result of new information, future events or otherwise, except as required by securities legislation. Certain research and information about specific holdings in the Fund, including any opinion, is based upon various sources believed to be reliable, but it cannot be guaranteed to be current, accurate or complete. It is for information only, and is subject to change without notice.

About This Report

This annual Management Report of Fund Performance of Lysander-Canso Equity Fund (the “Fund”) contains financial highlights for the year ended December 31, 2019 but does not contain the complete financial statements of the Fund. This report should be read in conjunction with the annual financial statements of the Fund for the year ended December 31, 2019. Lysander Funds Limited (the “Manager”) is the manager of the Fund. You can get a copy of the financial statements at your request, and at no cost, by calling toll-free 1 877 308 6979, by writing to Lysander Funds Limited, 3080 Yonge St., Suite 3037, Toronto, Ontario, M4N 3N1, by visiting our website at www.lysanderfunds.com or at SEDAR at www.sedar.com.

Unitholders may also contact Lysander Funds Limited using one of these methods to obtain a copy of the Fund’s proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Investment objective

The Fund’s objective is to provide long-term capital growth by investing primarily in equity securities of companies anywhere in the world.

Investment Strategies

The Fund’s portfolio manager is Canso Investment Counsel Ltd. (“Portfolio Manager” or “Canso”), a company under common control as the Manager. The Fund invests primarily in equity securities of small, medium and large companies. The Fund may also hold cash and fixed income securities. The Fund will not be constrained by geographic or sector considerations and could be

substantially exposed to equity securities of issuers not in developed markets.

Canso tends to take a “bottom up” approach to portfolio construction, focusing on security selection. The Portfolio Manager selects securities based on its independent, proprietary research and valuation of individual companies.

The Fund may invest in debt securities convertible into common stock, fixed income securities of governments, government agencies, supranational agencies, companies, trusts, limited partnerships and other funds including ETFs. The Fund will not be leveraged. The Fund may invest up to 100% of its net assets in foreign securities.

The Fund may hold all or a portion of its assets in cash or cash equivalents or invest in short term bonds or money market instruments in response to adverse market, economic and/or political conditions or for liquidity, defensive or other purposes. As a result, the Fund may not always be fully invested in accordance with its investment objectives. More details are contained in the Fund’s simplified prospectus.

Risks

The risks of this Fund remain as discussed in the Fund’s most recent simplified prospectus.

Results of Operations

During the year Canso employed its bottom-up process to buy and sell securities for the Fund. The Fund’s positioning and performance is consistent with the Fund’s fundamental investment objective and strategies.

Lysander-Canso Equity Fund

Annual Management Report of Fund Performance as at December 31, 2019

The Fund had returns in the year of 25.85% for Series A and 27.28% for Series F.

The net assets of the Fund increased to approximately \$7.1 million at December 31, 2019 from approximately \$3.9 million at the beginning of the year. This was primarily due to net subscriptions of \$1.9 million during the year.

There were no unusual changes to the components of revenue and expenses of the Fund and there were no unusual events or transactions, economic changes or market conditions that affected performance beyond what would be reasonably expected.

The Fund did not borrow money during the year except for immaterial short-term cash overdrafts.

Recent Developments

Markets almost never behave the way most people expect. 2019 was no exception. The year started off coming off a tough final quarter of 2018 and the overall mood was negative. The US Federal Reserve appeared to be in a tightening mode that was going to last a long time. This was weighing on markets in the early part of the year.

In what appeared to be at least partially a response to severe criticism, the Fed started to actually cut rates starting in July 2019. This caught the market by surprise and propelled a strong equity rally. Clearly, it was not the magnitude of the rate cuts that improved things, it was the message that the Fed was not going to be the one that slowed things down, especially in an election year. US equity indices ended up very strongly for the year, led by the tech-heavy NASDAQ.

Equity markets continued to power ahead through year-end as the US Federal Reserve indicated there would not likely be any further rate cuts through the election year of 2020. Markets also looked to sustained economic expansion, labour market strength, and contained inflation in the coming year. The prospect of a trade deal between the US and China also contributed to equity market strength. This is expected to reduce tariffs and boost Chinese purchases of American farm, energy and manufactured goods and address disputes over intellectual property.

Canso continues to have concerns about overall market valuations and believes that caution is warranted, even though current trends may continue for some time.

The Fund added two new positions to the portfolio in the second half of the year, Kraft Heinz and GoPro. The Fund also increased its weight in David's Tea, Second Cup, SNC, and Linamar. These

purchases were funded by sales of Empire Co., Apple, Nutrien, and Maxar Technologies.

The Fund outperformed the benchmark due to its concentrated positioning. Positions in Apple, CAE, General Electric, Nintendo, and Yellow Pages all significantly outperformed the market leading to the strong performance in 2019 for the Fund. The Fund continues to exercise bottom up fundamental analysis to produce a concentrated portfolio and therefore has very little overlap with the index.

Effective Jan 1, 2020 the management fees of Series A and Series F of the Fund have been reduced from 2.00% and 1.00% to 1.80% and 0.80% respectively, exclusive of taxes.

There have been no changes to the Manager or Portfolio Manager, or change of control of the Manager, or of the Fund. There have been no actual or planned reorganizations, mergers or similar transactions.

There were no changes to the membership of the Fund's Independent Review Committee ("IRC").

Related Party Transactions

The Manager provides or arranges for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including but not limited to, calculating and reporting the net asset value of the Fund and its series, preparing all offering documents, unitholder recordkeeping and other administrative services. The Manager receives a management fee for these services. The fee is calculated based on a percentage of the net asset value of the Fund as disclosed in the simplified prospectus.

The Fund paid \$69,147 (including HST) in management fees to the Manager for the year ended December 31, 2019 (December 31, 2018- \$44,611).

The Portfolio Manager is responsible for all investment advice provided to the Fund including providing investment analysis and recommendations, making investment decisions and arranging for the acquisition and disposition of portfolio investments. Fees for providing these services are included in the management fee.

The Manager paid \$32,768 (including HST) to the Portfolio Manager for the year ended December 31, 2019 (December 31, 2018 - \$20,232).

The Manager relied, or may rely on standing instructions from the IRC in respect of securities traded amongst mutual funds,

Notes

- The information is derived from the Fund's audited annual financial statements. All per unit figures presented are referenced to net assets determined in accordance to IFRS.
- Net assets and distributions are based on the actual numbers of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.
- Distributions were paid in cash or reinvested in additional units, or both.
- This information is provided at the end of the period shown.
- The management expense ratio is based on the total expenses of the period ended and is expressed as an annualized percentage of daily average net asset values during the period.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities, excluding short term securities.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

Management Fees

The Manager provides or arranges the provision of all general management and administrative services required by the Fund, and as described in the section “Related Party Transactions” above.

In consideration for such services, the Manager receives a management fee, based on the net asset value of each Series, calculated daily and payable monthly. Effective January 1, 2020, the Fund will pay a management fee of 1.80% (formerly 2.00%) per annum for Series A units and 0.80% (formerly 1.00%) per annum for Series F units. No management fee is charged to the Fund with respect to Series O units, but investors are charged a negotiated management fee.

Service fees or trailing commissions of a maximum of 1.00% per annum were paid on Series A units to dealers. This comprises approximately 50.0% of the management fee of Series A units.

Year-by-Year Returns

Series A

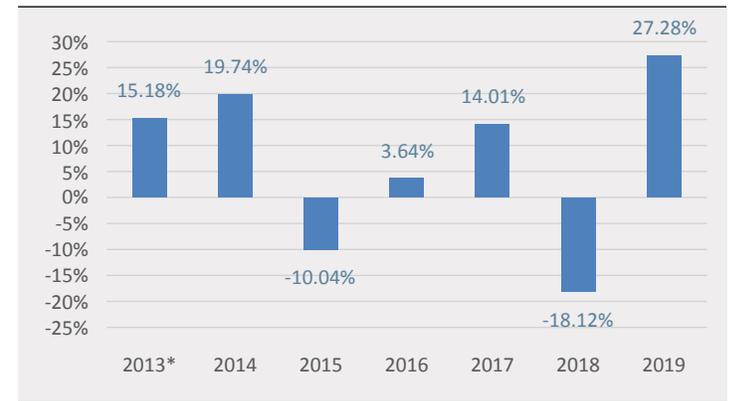

Past Performance

The Fund commenced operations on September 18, 2013. Accordingly, returns are shown for the relevant years as indicated below.

The performance information assumes that any distributions are reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. Past performance does not necessarily indicate how the series will perform in the future.
